These two trees, the Village Green Japanese Zelkova and the Freeman Maple, **CANNOT** be planted in areas with utility poles and wires because they grow too tall. Refer to the other side of this brochure for "wire-friendly" trees.

### **A - Village Green Japanese Zelkova**

Height: 50-60 feet at maturity  
Width: 50-60 feet at maturity  
Shape: broad & vase-shaped, medium-fine texture  
Foliage: dark green turning rusty red in fall  
Flowers: inconspicuous  
Fruit: inconspicuous  
Salt Tolerant

### **B - Freeman Maple**

Height: 45-60 feet at maturity  
Width: 20-40 feet at maturity  
Shape: rounded to broad oval  
Foliage: green turning orange/red in fall  
Flowers: sterile  
Fruit: winged seeds, if present at all

**THE TREES ON THIS PAGE ARE "WIRE FRIENDLY."  
THEY CAN BE PLANTED CURBSIDE, EVEN UNDER WIRES.**

**C - Regent Japanese Tree Lilac**

Height: 25-30 feet at maturity  
Width: 15-20 feet at maturity  
Shape: egg-shaped, medium texture  
Foliage: dark green, without notable fall color  
Flowers: pure white flower clusters  
Fruit: clusters of capsules, turning green to brown  
Salt Tolerant

**D - Kwanzan Oriental Cherry**

Height: 25-35 feet at maturity  
Width: 20-25 feet at maturity  
Shape: moderately vase-shaped, spreading with age, medium texture  
Foliage: emerges reddish copper, turning dark green; orange-brown in fall  
Flowers: 2.5" pendulous, double, deep pink blossoms  
Fruit: fruitless

**E - Tridental Maple**

Height: 25-35 feet at maturity  
Width: 20-30 feet at maturity  
Shape: oval to rounded  
Foliage: green, red to orange in fall  
Flowers: showy yellow flowers in spring  
Fruit: inconspicuous and not showy  
Salt Tolerant

**(CONTINUED ON NEXT PAGE)**

**THE TREES ON THIS PAGE ARE "WIRE FRIENDLY."  
THEY CAN BE PLANTED CURBSIDE, EVEN UNDER WIRES.**

**F - Cumulus Serviceberry**

Height: 25-30 feet at maturity  
Width: 12-18 feet at maturity  
Shape: upright-oval, medium fine texture  
Foliage: green, yellowish-orange or red in fall  
Flowers: showy white blossoms in early spring  
Fruit: red to purple berries around June

**G - Purple Leaf Plum**

Height: 15-25 feet at maturity  
Width: 15-25 feet at maturity  
Shape: rounded narrow  
Foliage: dark red to purple  
Flowers: white or pink  
Fruit: little or none
